

Introducing The First Data™ FD35 PIN pad

The First Data™ FD35 PIN pad goes beyond the simple PIN pad. This comprehensive, consumer-facing device is designed for speed and convenience. The FD35 device accepts debit cards, all major credit cards and gift and Electronic Benefits Transfer (EBT) cards. In addition, it accepts a wide variety of payment devices, including chip-and-PIN, magnetic stripe and contactless cards, as well as mobile phone payments and key fobs. User-friendly features include an ergonomic keypad, visual display prompts, and lights and audio cues, which simplify the payment process. It's an ideal payment solution for merchants who are looking for a consumer-facing device to improve payment security and meet current and future compliance requirements, handle a high volume of small-ticket transactions and those wanting to support emerging payment technologies such as mobile.
